CUSTOMER NOTIFICATION PROCEDURES:

A. Customer Owned Service Lines - §192.16

In compliance with the Department of Transportation, Pipeline Safety Regulations, Part 192.16 Customer Owned Service Lines, Customer Notification, the Corinth Gas Department is required to notify each customer only once, either by August 14, 1996 or 90 days after the customer first receives gas at a particular location, whichever is later, to exercise diligence regarding underground or buried gas piping. Buried pipe may be subject to leakage and/or corrosion (corrosion may occur on metallic pipe) and could potentially be subject to hazards if not maintained.

Customers are to be advised that any and all gas pipe downstream of the gas meter belongs to them, the gas consumer, and the gas consumer is responsible for maintenance and operation of this portion of the fuel line system.
